NOTICE TO LOT OWNERS.

ORDINANCE NO. 1.

SECTION 1. Be it ordained by the Town Council of the Borough of Altoona, That the several streets, lanes and alleys within the Borough, shall be of the width originally laid by the proprietor of the ground, or according to law, as they have been heretofore established and recorded, to wit:—Branch, Harriet, Adeline, Helen, Rebecca, Elizabeth, Agnes, Clara, Caroline, Julia, Annis and Catharine streets, in East Altoona, shall be fifty feet wide; and Main, Virginia, Emma, Claudia, Mary, Clara, Caroline, Julia, Annis Catharine streets, in West Altoona, shall be fifty feet wide; and Maine, Virginia, Emma and Claudia alleys, in West Altoona, shall be fifteen feet wide.

SEC. 2. And be it further ordained, &c., That the width of pavements along said streets shall be ten feet to the outside of the curb-stone, and along public alleys the pavements shall be three feet wide.

SEC. 3. In laying said pavements, the earth underneath shall be removed to the depth of one foot and the space filled up with sand, gravel or shell, on which the pavement shall be laid, with a descent from the line of the building of one half inch to the foot, to the line of the curb-stone. The said pavements shall be of brick or plank, and laid to one-half the width above specified, which half shall be next to the curb-stone and one foot therefrom; the other half shall be filled up with gravel or planked, at the option of the owner.

SEC. 4. All curb-stones to be set hereafter along the streets, lanes or alleys of the Borough, shall be at least five inches thick at the top, when the pavements shall have to be ten or more than ten feet wide, and not less than of the thickness of four inches in all other cases; and shall be of the depth of 18 inches from the top, dressed and fitted so as to be uniform in appearance.

SEC. 5. It shall be the duty of owners within the Borough at the request of the Supervisor, to procure and set curb-stones in front of their said lots, along the several streets, lanes and alleys of this Borough, herein before named under the directions of the regulator of the dimensions herein before set forth, and to lay pavements in the manner herein before directed; and in all cases where lot holders shall have set curb-stones or laid pavements, and the same shall not be according to the regulations of the regulator, or shall, in the opinion of the regulator, require re-setting the owners of such lots shall, on five days notice from the Supervisor, take up such curb-stones or pavements, and re-set and re-lay them under the direction of said regulator. And if any lot-owner shall neglect or refuse, after notice as aforesaid, to set or re-set their curb-stones or pave or re-pave their foot-way in front of their lot or lots, in accordance with the requisitions of this ordinance, it shall be the duty of the Supervisor to cause the same to be done at the expense of the said lot owner or owners, and the amount of the expense shall be recoverable before the Chief Burgess in the same manner as debts under one hundred dollars are now recoverable before a Justice of the Peace; and the said lot owners shall moreover be liable to suffer the penalties inflicted under the eighth section of this ordinance.

SEC. 6. Whenever any lot owner shall have set curb-stones and laid his, her or their pavements agreeably to the directions of this ordinance, along any of the aforesaid streets, lanes or alleys, it shall be the duty of the Supervisor to maintain a suitable gutter at the expense of the Borough and under the direction of the regulator.

SEC. 7. No cellar-door, porch or step shall project or be extended more than five feet from the line of the buildings into or over the pavements in any of the streets. No porch shall be constructed, post set up, or trees planted along any of the alleys beyond the line of the lots, and no cellar door or step shall be constructed in any of the alleys which shall extend further into the alley than two feet from the line of the lot, and all steps or cellar doors erected or constructed in any of the said alleys, shall be on a grade with the pavement thereof, so as to occasion no obstruction to persons passing along said pavements.

SEC. 8. If any person shall set up curb-stones, lay pavements, or make footways, or set up or plant a post or tree, or construct a cellar door, porch or door step in any of the streets, lanes or alleys of the Borough in any other manner than is directed in this ordinance, or shall refuse to take up his, her or their curb-stones or pavements and re-set or re-lay them in the manner herein before described, every person so offending, and being legally convicted thereof before the Chief Burgess, shall forfeit and pay for the use of the Borough, ten dollars for each offence, to be levied and collected as sums under one hundred dollars are levied and collected by a Justice of the Peace under the laws of this Commonwealth.—*Extract from Ordinance Book, passed July 13th, 1854.*

At a meeting of the Town Council of the Borough of Altoona, held March 8th, 1860, it was, on motion,
Resolved, That the Chief Burgess be forthwith directed to procure printed copies of Ordinance No. 1 of said Borough, (in hand-bill form,) and have a sufficient number posted up in the most public and conspicuous places, within the limits of the Borough, and also inserted in the "*Altoona Tribune,*" calling the immediate attention of lot owners and agents to the requisitions of the same; and especially to that part relating more particularly to the putting down of Pavements in front of his, her or their lot or lots, and see that the same be fully complied with. And in case any lot owner shall neglect or refuse to put down Pavements in accordance with said Ordinance, for the space of *ninety days* from the date hereof, that Sections 5th and 8th of said Ordinance be immediately enforced.—*Extract from the Minutes.*

The Valley of the Shadow of Death.

BY FANNY FALES.

My feet drew near the valley—I could hear
The flow of Jordan through the mists that hide;
Yet on I trod, without a sign of fear,
For angels walked beside.

The tender Summer birds had southward flown,
The flowers lain down to sleep until the Spring;
Of this chill earth I, too, had weary grown,
In brighter climes would sing.

I knew the flowers would wake again and smile,
The birds build in the lilac by the door;
And I should go, be missed a little while,
But come again no more.

Yet turned I not for tears or outstretched arms,
Not for the anguish of my only child;
The Heavenly City, with its untold charms,
Beyond the river smiled.

The gates of pearl! I saw their light afar—
Some "gone before" awaited me within;
No restless yearnings their sweet rest to mar,
No sickness, sorrow, sin.

But the life angel beckoned me away—
With slow, weak steps I followed where he led;
Not yet, he said, thy *rest* awhile delay,
There's *work* for thee instead.

The April rain makes music on the roof,
The April buds are bright'ning into flowers;
And, God's love for the warp and for the woof,
Time weaves for me the hours.

O heart, take courage! Some threads dark as night,
Beside the sunbeams in life's web are wove;
But they are needful in thy Father's sight,
Are tokens of His love.

IMPORTANT RULES

FOR THE BENEFIT OF

Young Men Entering Business.

As the busy season is now approaching, and by a glance at our advertising columns it will be perceived that our merchants are preparing for a heavy Spring trade, we believe we will be conferring a benefit on the public generally by publishing an article taken from Freedley's Treatise on Business. The following article was written by our fellow-citizen, John Grigg, whose name has become a household word, throughout the country, for his strict integrity and open-handed liberality.

The rules he has laid down for our instruction have been his guide and study through life, and the proud position he now occupies has fully proved their truth.

Every parent who would consult the interests of his son should place a copy in his hands, and if faithfully adhered to success will be certain.—*Monitor*

Extract from Freedley's Practical Treatise on Business, published by Lippincott & Co.

John Grigg, of Philadelphia, the founder of the well-known publishing house of Grigg & Elliott, and G. E. & Co., of which Messrs. Lippincott, Grambo & Co. are the worthy successors, has favored us with some points which his experience has taught him it is important for men commencing business to observe. His life, it may be remarked, is another encouraging example of what integrity, united to talent, energy, and good fortune, may hope to accomplish under our free institutions. Beginning the world an orphan farmer boy, he has accumulated, as public opinion says, a fortune, and though rich, he has shown that he understands what few rich men ever have understood—that is, the art of using money wisely, as well as getting it. In a conversation with him the other day; he expressed the opinion that endorsing is a cause of one-half the failures in business, and stated the remarkable fact that he never had asked a man to endorse a note for him in his life. One great reason of his success, I have been informed, among many others, was his power of inspiring confidence—confidence in his honesty and ability. Many of his customers dealt with him for years without once inquiring the price of an article. He says of the complete business man, as Gen Butler said in his eulogy of Calhoun of the statesman, "he should have in an eminent degree the self-sustaining power of intellect. He must possess energy and enterprise, with perseverance and great mental determination. *To inspire confidence, which after all is the highest of earthly qualities,* is a mystical something which is felt but cannot be described."

But to his opinion in his own language.

1. Be industrious and economical—Waste neither time nor money in small and useless pleasures and indulgences If the young can be induced to begin to save, the moment they enter on the paths of life, the way will ever become easier to them, and they will not fail to attain a competency, and that without denying themselves any of the real necessaries and comforts of life. Our people are certainly among the most improvident and extravagant on the face of the earth. It is enough to make the Merchant of the old school who looks back and thinks what Economy, Prudence and Discretion he had to bring to bear on his own business, (and which are in fact the basis of all successful enterprise,) start back in astonishment to look at the ruthless waste and extravagance of the age and people. The highest test of respectability with me is honest industry. Well-directed industry makes men happy. The really noble class—the class that was noble when "Adam delved and Eve spun," and have preserved their patent to this day untarnished—is the laborious and industrious. Until men have learned Industry, Economy and Self control, they cannot be safely entrusted with wealth.

2. To industry and economy, add self-reliance. Do not take *too much advice.* The business man must keep at the helm and steer his own ship. In early life every one should be taught to think for himself. A man's talents are never brought out until he is thrown to some extent upon his own resources. If in every difficulty he has only to run to his principal, and then implicitly obey the directions he may receive, he will never acquire that aptitude of perception, and that promptness of decision, and that firmness of purpose which are absolutely necessary to those who hold important stations. A certain degree of independent feeling is essential to the full development of the intellectual character.

3. Remember that punctuality is the mother of confidence. It is not enough that the Merchant fulfils his engagements, he must do what he undertakes precisely *at the time,* as well as in the way he agreed to. The mutual dependence of merchants is so great, that their engagements like a chain, which, according to the law of Physics is never stronger than its weakest link, are oftener broken through the weakness of others than their own. But a prompt fulfilment of engagements is not only of the utmost importance, but it enables others to meet their own engagements promptly. It is also the best evidence that the Merchant has his affairs well ordered—his means at command, his forces marshalled, and "everything ready for action"—in short that he knows his own strength. This it is which inspires confidence, as much perhaps as the meeting of the engagement.

4. Attend to the *minutæ* of the business, small things as well as great. See that the store is opened early, goods cleaned up, twine and nails picked up, and all ready for action. A young man should consider capital, if he have it, or as he may acquire it, merely as tools with which he is to work, not as a substitute for the necessity of labor. *It is often the case that diligence in employments of less consequence is the most successful introduction to greater enterprises.* Those make the best officers who have served in the ranks. We may say of Labor, as Coleridge said of Poetry, it is its own sweetest reward. It is the best of Physic.

5. Let the young Merchant remember that selfishness is the meanest of vices, and it is the parent of a thousand more. It not only interferes both with the means and with the end of acquisition—not only makes money more difficult to get, and not worth having when it is got, but it is narrowing to the mind and to the heart. Selfishness "keeps a shilling so close to the eye that it cannot see a dollar beyond."—Never be narrow and contracted in your views. Life abounds in instances of the brilliant results of a generous policy.

Be frank. Say what you mean. Do what you say. So your friends shall know and take it for granted that you mean to do what is just and right.

6. Accustom yourself to think vigorously. Mental capital, like pecuniary, to be worth anything, must be well invested—must be rightly adjudged and applied, and to this end, careful, deep and intense thought is necessary if great results are looked for.

7. Marry early. The man of business should marry as soon as possible, after he is twenty-two or three years of age. A woman of mind will conform to the necessities of the day of small beginnings; and in choosing a wife, a man should look to, 1st, The heart; 2d, The mind; 3d, The person.

8. Everything, however remote, that has any bearing upon success must be taken advantage of. The business man should be continually on the watch for information, and ideas that will throw light on his path, and he should be an attentive reader of all practical books, especially those relating to business, trade, &c., as well as a patron of useful and ennobling literature.

9. Never forget a favor, for ingratitude is the basest trait of a man's heart. Always honor your country, and remember that our country is the very best poor man's country in the world.

☞ My little curly-headed, three year old Katy Philips saw her grandmother putting some lucifer matches in a safety box one evening, and asked, "Grandma, who brought the matches from heaven down here to us?"

"Why nobody, my dear; people make them here, and we buy them at the store."

"No, grandma, 'cause last night when the wind blew the candle out in the parlor, Mr. Brown said to mary, "Miss Mary let you and I make a match?" and Mary said, "Oh, matches are made in Heaven!"

☞ There is many a man whose tongue might govern multitudes, if he could only govern his tongue.

Wouldn't Own Up.

Joe Stetson was a wild, frolicking fellow, who spent most of his time in drinking and spreeing, while his wife, Polly, was left at home to do the chores. Upon a certain occasion Joe left home, to be back as he said that night. Nigh came but Joe did not. The next day passed; and about sunset Joe came up in the worst condition imaginable—his clothes dirty and torn, one eye in deep mourning, and his face presenting more the appearance of a piece of raw beef than anything else. Polly met him at the door, and noticing his appearance, exclaimed:

"Why, Joe, what in the world is the matter?"

"Polly," said Joe, "do you know that long Jim Andrews? Well him and me had a fight."

"Who whipped, Joe?" asked Polly.

"Polly, we had the hardest fight. I hit him and he hit me, and then we clinched. Polly, we had the hardest fight you ever did see. I hit him, he me, and then we clinched. Polly, ain't supper most ready? I ain't had nothin' to eat since yesterday morning."

"But tell me, who whipped Joe?" continued Polly.

"Polly," replied Joe, "I tell you you never did see such a fight as me and him had. When he clinched me I jerked loose from him, and then he gin me three or four of the most sufficientest licks you ever hearn off. Polly ain't supper most ready? I'm nearly starved."

"Do tell me who whipped, will you?" continued Polly.

"Poll," said Joe, "You don't know nothin' bout fightin'. I tell you we fout like tigers; we rolled and we tumbled—first him on top, then me on top—and then he would pat me on the head and hollow, 'Oh my! Stetson!' We gouged and bit and tore the dirt in Seth Rudnel's grocery yard worse nor two bulls. Polly, ain't supper ready, I'm monstrous hungry?"

"Joe Stetson!" said Polly, in a tone bristling with anger, "will you tell me who whipped."

"Polly" said Joe, drawing a long sigh, I hollered."

Jackson's Honesty.

"When General Jackson was President of the United States," said an aged laborer in the Presidential garden a few years since, "he could tell an honest man from a rogue when he first saw him. I remember that a clergyman with a stiff white choker and an untarnished suit of black, called upon him one morning when he was overlooking some work that I was performing in the garden, and requested an appointment to some office, saying, 'General, I worked harder for your election than many of those upon whom you have already bestowed offices.' 'You are a minister of the Gospel?' said Old Hickory, inquiringly. 'Yes,' said the clergyman, 'I was a minister, but I thought I could do better by becoming a politician. So I stumped the district week days for you and preached for the Lord Sundays.' Old Hickory turning short toward him, and looking him full in the face, said, 'By the Eternal, if you would cheat the Lord you would cheat the country. I will have nothing to do with you, nor any like you. Good morning,' and he walked rapidly away. I never shall forget the look of that hypocritical clergyman. Had the last judgement been set, and he before the great white throne, I doubt whether he would have looked more blank and chop-fallen."

WHAT AILED HIM.—The last number of the Knickerbocker has a good anecdote of a man who rarely failed to go to bed intoxicated and disturb his wife the whole night. Upon his being charged by a friend that he never went to bed sober, he indignantly denied the charge, and gave the incidents of one particular night in proof.

Pretty soon after I got into bed, my wife said, "Why, husband, what is the matter with you? You act strangely."

"There's nothing the matter with me, said I, nothing at all."

"I'm sure there is," said she "you don't act natural at all. Shan't I get up and get something for you?"

And she got up, lighted a candle and come to the bedside to look at me, shading the light with her hand.

"I knew there was something strange about you," said she; "*you are sober!*"

Now, this is a fact, and my wife will swear to it, so don't you slander me any more by saying that I haven't been to bed sober in six months, cause I have.

☞ "My son hold up your head and tell me who was the strongest man?"

"Jonah."

"Why so?"

"Cause the whale couldn't hold him after he got him down."

American Life Insurance and Trust Company.

We have seen the statement of this Company for January 1, 1860. The Life fund is, very properly, excluded from the deposit business, and the exhibit of resources is certainly fully adequate to meet all the matured and contingent liabilities of this department of the Company's business. No institution of its class in the United States is more prudently managed than the American, and its officers evince a most laudable desire to avail themselves of all improvements as they are developed in the science of Life Insurance. The American has the advantage of a very wide distribution of its risks in relation to the average amount of each policy. This average is less than $850 Apart from the present value of future premiums, the assets foot up $645,665 26. Since it began its career the American has paid over $100,000 of its claims. The Company has three classes of rates, viz; Total Abstinence, Mutual and Stock. The lowest of these are, of course, the Total Abstinence, and they constitute a striking practical commentary on the value of temperance in promoting human longevity.

Not long since, an insurance was effected upon the life of a Mr. Munson, one of the agents of the Penn'a R. R. Co. at Johnstown. Shortly after this gentleman died, and the amount ($1000) was promptly paid over to the widow of the deceased. The idea of securing an insurance on your life is a good one, and money invested in this way is certainly a wise and prudent investment. Many families have been left in easy circumstances by the parents thus contributing a few dollars—and we do not hesitate the least in recommending our many readers to secure a policy at once in this Company. The Company's agent will be found in his office at all times during the day, and will give any information that may be required.

An Oleaginous Correspondent.

The following from a facetious correspondent of the Sandusky *Register*, who writes to that paper from the oil region in Trumbull county, Ohio, is about as slippery a correspondence as we have seen lately :—

"I arrived here at a very late hour last night, on an oil train, and may as well have come on *train oil*, as we were sixteen hours behind time. All the trains were behind time, I learn, owing to the accumulation of oil on the track at this end of the road. The oil fries out of the ground and lubricates the rails for a great distance.—We shouldn't arrived here at all, if the passengers hadn't got out and sprinkled the track with cigar ashes. I slipped out of bed,—nobody "arises" here; we all *slip* into bed and *slip* out—at an early hour this morning, and began my investigations. I found a section embracing fourteen thousand acres of land, chuck full of oil springs. Drilling is unnecessary here, as the oil boils up in springs, sometimes to the height of twenty-five feet, and is caught in tin pails as it comes down. On a hot day, I am told, it is no unusual thing to see the women frying dough nuts in these jets of oil. The balls of dough are dropped into the jets, where they are tossed about like corks in a fountain, until they are fried by the heat of the sun. The only species of tree which abounds here is the *slippery* elm. These trees are so slippery a squirrel can't climb them without dipping his paws in Spalding's Prepared Glue, a small bottle of which he always carries suspended about his neck. There are a few maple trees here, but no sugar is made, as nothing but oil runs out when they are tapped. There is one considerable sized creek running through Trumbull county which is all oil. It was discovered a short time ago in a singular manner. Three boys went in to bathe, and when they came out were so greasy that they couldn't stay in their clothes. As fast as they slipped them on they would slip off again, and one of the lads, in a heedless moment, narrowly escaped slipping out of his skin. On reaching home their parents, being exceedingly frugal, wrung them out and extracted *fourteen gallons of pure oil from the three boys!*

WAKE UP, SNAIX.—A lady in Petersburg, Va., one day last week, while out marketing, brought a cabbage in rather close proximity to her face, and as she did so, a small green snake, waked from his repose among the leaves of the cabbage, perked out his head, and gave the lady a tender kiss upon the lips. His impudent familiarity then proceeded to render himself comfortable in the bosom of the unsuspecting dame, and had stretched his long, almost transparent body half way around her neck, before she was aware of his presence, when she let fall the cabbage and her basket of butter and eggs, and after a few screams removed the intruder. It was eighteen inches long.

THE REFORM BILL.—Many persons have looked forward with anxiety to the passage of the Insurance Reform bill, hoping for the best, but fearing the worst. Well, the worst has been realized,—the bill has been defeated in the Senate. The object of the bill was to compel Insurance Companies to give a true statement in public advertisements of the amount of their capital. As an evidence of the manner in which most companies do business and the want of a proper law on the subject, we quote the following from the Philadelphia *Sunday Mercury*, of the 25th inst., in which our Senator, Col. L. W. Hall, comes in for a just meed of praise :—

"Certain Senators first sought to kill the bill by mutilating amendments, which were indignantly repudiated by its friends. Mr. Hall, of Altoona, made a telling speech in favor of the measure. He traced $860,000 as the advertised capital of an Insurance Company on Walnut street, Philadelphia, to the Auditor General's office, where it dwindled down to $20,000, upon which they paid their State tax, amounting to $60. He demanded the passage of the bill, because it was right and just, and because every representative from the county of Allegheny and the city of Philadelphia, except Messrs. Strong and Dunlap, of the House, and Mr. Parker, of the Senate, were in favor of the bill, and as a matter of common courtesy he demanded its passage. But the majority of the Senate were "fixed," and the borers of the bogus companies were enabled to throw up their hats over their triumphant escape."

LETTER FROM HARRISBURG.

Correspondence of the Tribune.

HARRISBURG, March 27, 1860.

Gentlemen :—Either the session is drawing to a close, or it is not drawing to a close, but whether an adjournment takes place on the 3d of April, or the time be extended, the business is now being rushed through at a terrible rate—doing now what was left undone in the early part of the session, so that it is not at all improbable that we shall experience the usual bad effects of hasty legislation. To-day a memorial or manifesto from the Quakers of some of the lower counties, and of the State of New Jersey, repelling the charge of their being favorable to the abolition of slavery by force of arms or violence of any kind, was presented.

The Mifflin County Bank bill has passed both Houses over the head of the Governor. It made a narrow escape in the House, and would have been lost, only that Mr. Dunlap, a Democratic member from Philadelphia, was permitted to vote for the passage of the bill, after the vote was announced. Whether a vote on a veto can be reconsidered, is a question. The Attorney General says it can't be done. The bill is altogether a queer one, and if I can understand it properly, the basis of its operations is to be hypothecated real estate. In other words Stone Mountain and Jack's Mountain can be both put in at so much an acre, in lieu of cash, for the ultimate redemption of the notes!

In the Senate to-day, a bill was passed to a third reading for the erection of a new county out of parts of Potter, Elk, M'Kean and Clinton counties, to be called Cameron. The location is principally on the Allegheny mountain, on the line of the Sunbury and Erie Railroad, and it is expected that the county seat will be selected by the Company for the erection of their workshops. As it lies in a region abounding in coal, iron ore and timber, it will no doubt spring as rapidly into existence as your own thriving village.

Chas. D. Hineline, of the *Sentinel*, has been appointed Superintendent of Public Printing for one year from the first day of June next, and his appointment has been unanimously confirmed by the Senate. Salary $800 per annum. Quite a nice little income, seeing as how it does not interfere with a man's usual occupation.

Last week the Sunbury and Erie question took a new shape. I told you in my last that the supplement which proposes making the State mortgage bonds second bonds in order that they may dispose of $2,500,000 of first bonds, to enable them to complete their road, had passed to a third reading. There it has stuck ever since and its fate is now involved in considerable doubt. On Friday last Mr. Finney offered the following substitute, which was passed :—

A supplement to the act for the sale of the State Canal, approved the twenty-first day of April, Anno Domini one thousand eight hundred and fifty-eight.

SEC. 1. Be it enacted, &c., That so much of the sixth section of the act for the sale of the State Canals, approved the 21st day of April, 1858, as requires the Attorney General to sue out the mortgage to the Commonwealth of the Sunbury and Erie Rail Road Company on the road of said company, and the mortgage or mortgages on the canals sold under the provisions of the said act, which may remain uncancelled, if payment shall fail to be made of any principle or interest on the bonds of said company to the Commonwealth, ninety days after the same shall be due, be and the same is hereby repealed, and it shall be discretionary with the Attorney General, ninety days after the failure of said company to pay as aforesaid, by and with the advice and consent of the Governor and State Treasurer to sue out said mortgage or mortgages, until otherwise provided by law. Provided, That no proceedings shall be had against said company on behalf of the Commonwealth, under the provisions of the act to which this is a supplement, until after the 1st day of January, 1861.

SEC. 2. That the President and Managers of the Sunbury and Erie Rail Road Company be and they are hereby authorized to make and enter into any contract or contracts, with the Managers or President and Directors of any other railroad company, or companies, in this Commonwealth, having relation to the completion, the working of, or to the traffic originating on, or passing over, or to and from the Sunbury and Erie Railroad, which may be considered just and reasonable by the contracting parties: Provided, That the same shall not effect the lien of the mortgage to secure the payment of the five per centum bonds issued by the said company under the provisions of the act for the sale of the State canals, and such contract or contracts shall be binding upon the said companies represented by the said contracting parties as fully as if the same were expressly authorized by their respective charters.

This is by no means a bill calculated to give the Company any relief; it virtually only puts off the evil day. I think before the week is out a determined effort will be made to pass the supplement which originated in the House.

The new Insurance bill was killed in the Senate on Saturday, by a vote of 20 to 9. Senator Hall made a powerful speech in behalf of the bill, but the pressure against it was too strong to make any impression.

This morning the bill annexing Middle Woodberry township, Bedford county, to Blair county, was reported favorably in the Senate, and in the afternoon Mr. Hall moved that the Senate proceed to the consideration of the bill, which was not agreed to. This foreshadows the fate of the bill. It will be killed.

The bill to lay a passenger and freight railway track on Broad street, in Philadelphia, passed the House under the lash, and is likely to pass the Senate. It is the only street of any importance in the city on which rails are not already laid.

In the Senate to-day an effort was made to reconsider the vote relative to the final adjournment, but failed by nearly a two-third vote.—The latter vote was re-considered, and the vote to reconsider was postponed indefinitely. This places a reconsideration out of the reach of the Senate, and if the session is extended, it must be done by a consideration originating in the House. After the above was written, and just at the close of the afternoon session in the House, a motion was made to make the Sunbury and Erie supplement the special order for to-morrow morning which was lost—yeas 45, nays 52. A motion was then made to make it the special order for to-morrow evening, which was also lost—yeas 46, nays 51. I think there will be some trouble in getting the bill called up, although this vote does not effectually kill it.

The new Police bill for the city of Philadelphia was vetoed, and this evening passed over the veto in the House by a two-third vote. It cannot be so passed in the Senate, if party lines are drawn.

The Appropriation bill has passed the House, and I suppose will be reported by the Senate Committe to-morrow morning. That, and the second part of the Revised Penal Code are all the bills of any magnitude, in which the public are interested, yet to pass. There is a multitude of private bills on the files, many of which will not be passed, and I think the public will be the gainers thereby. The people generally are not in favor of the immense amount of special legislation granted here annually.

☞ Terrible Mutiny.—The Ship Norway, of New York, on her passage from Macao to Havana, recently with 1,000 Coolies, was the scene of a terrible mutiny, resulting in the death of thirty Coolies, ninety others being wounded. Senate by the President, that the Minister was authorized to offer $10,000,000 for Lower California, and the right of way from the Rio Grande to Mazatlan, and from Arizona to Guaymas. But the negotiation fell through. Ten millions would have helped Juarez very much, but it is probable that he feared to place himself in the position before the nation of parting with Mexican territory.

THE NEGRO PIANIST.—Blind Tom, the negro pianist, is giving concerts at New Orleans. It is stated that though he never had any tuition, he can play more than eleven hundred different pieces on the piano. He was born in Columbus, Georgia, and is only nine years and some months old, and has been blind from infancy.—In consideration of this affliction he was petted by the family who owned him, and allowed the access of the parlor. One day, says his biographer, he accidentally stumbled against the open piano-forte, and, though scarcely able to reach the keys, began playing at once, fingering with the skill of an accomplished player. Blind Tom is fond of improvising and of imitating the pianists that he may hear. For his first concert it is announced that "this extraordinary genius of harmony will play the national air with one hand and Fisher's hornpipe with the other, and both at the same time."

ARRESTED.—James Morris, the lecherous monster who committed the fiendish outrage, a few days since, in Carroll township, near Ebensburg, on the person of a little girl ten years of age, whom he had under his charge as a pupil, was arrested at Erie, in this State, on Saturday, and is, in all probability, ere this returned to our county and securely lodged in prison. If full justice be done the wretch, and no doubt it will be, he will receive the severest penalties that the law inflicts upon such despicable and degraded villains, and be made to feel that such polluted as he are unworthy even the shadow of mercy. The reward offered for his arrest by the county was $200, which was probably further enhanced by the contributions of persons in the neighborhood in which the outrage was committed.—*Johnstown Echo.*

A SINGULAR CASE.—A young woman, named Ann Mari v Riffle, of Somerset county, was, unknown to any one, delivered of a child, on the 7th day of January last, in Cambria City, which she placed in her carpet bag and kept concealed until the 15th of the present month, when it was discovered by a gentleman with whom she was living, during her temporary absence. Information was immediately made, and the girl arrested by officer Gageby, when she at once acknowledged being the mother of the child, and having kept it in the carpet-bag from time of its birth—a period of near ten weeks. Squire Flattery held an inquisition on the body of the child, and a post mortem examination was made by Drs. Lowman and Bissell No marks of violence were discovered, and the physicians and jury were satisfied that the child had not come to its death by violence. Another singular thing is the fact that there was not the least scent or unpleasant smell about the child. The mother appears to be an innocent, simple creature, and had evidently no disposition to destroy her child. She was released on bail for her appearance at the next term of Court. A young man, named James McAnulty, of Bairdstown, Westmoreland county, the reputed father of the child, was arrested by officer Bradley and brought to this place on Saturday evening last. Mr. McAnulty was also released on giving bail. —*Johnstown Echo.*

APPALLING LOSS OF LIFE.—On Thursday evening, the 1st instant, at Porter's Salt Works, in Conemaugh township, Indiana county, five persons, viz: David King and his two daughters, whose christian names we have not learned; the wife of Samuel King, son of David, and a Miss Waddle, entered a skiff or small craft to cross the Conemaugh river, in going to a singing school on the opposite side. It appears that the river was pretty full, and the navigators did not use the necessary precaution of sitting down closely to the craft, and when the wind bent on their bodies and the craft caught the current in the river, it was upset, and all the five precious souls cast into the muddy waters of the Conemaugh. It appears that William Waddle, father of Miss Waddle, saw the frail upset, or saw the result of its upsetting and ran and waded in with a pole, extending it to his daughter, who appeared to be nearest him, and thought she had caught it, but a Miss King and her appeared to be clinging together, and neither were benefitted by his efforts. Mr. King is said to have been a good swimmer, and it is believed that the other two unfortunately clung to him, and prevented his own safety, as well as any further efforts on their behalf. All five are lost.—*Blairsville Record.*

P. S.—The body of Mr. King has since been found.

☞ In reference to the horrible massacre of Indians in California, we have, as yet, only the following particulars :—On Sunday morning, the 26th ult., by daylight at Indian Island, opposite the town of Eureka, and distant therefrom but a few hundred yards, more than forty Indians were killed, three fourths of whom were women and children. On the beach, at the south entrance of Humboldt Bay, forty or fifty more were massacred, that being every human being with a red skin in that village. It was reported and believed at Eureka that a simultaneous attack was made the same morning upon the Indian village on Eel River. From what was known not less than two hundred Indians, men, women and children were killed that morning These deeds were perpetrated by the farmers and graziers of Eel River county, who have suffered from Indian depredations during the past year. They claim that the peaceful Indians around Humboldt Bay have furnished aid and ammunition to the hostile Indians in the mountains, and hence a war of extermination has commenced.

MEXICAN MUSTANG LINIMENT

Its wonderful effects and consequent popularity—perhaps no article in the history of the *Materia Medica*, ever acquired the same patronage, was subjected to the same number of severe and different tests, and met with so few failures as the Mustang Liniment. It has justly been styled a Panacea for all external Wounds, Cuts, Swellings, Sprains, Bruises, or Eruptions on Man or Beast. It is so far a medicine of surprising virtue that Physicians are compelled to prescribe it, and from some remarkable cures of *Chronic and Distorted Rheumatic cases*, it has naturally attracted much attention from the first scientific minds of the age.—No family can afford to be without a bottle of the Mexican Mustang Liniment in the house. *Beware of imitations.*—The genuine is sold by respectable dealers in all parts of the world. BARNES & PARK, Proprietors, New York.

No Family should be without Them.

We speak of M'Lane's Liver Pills, prepared by Fleming Bros., Pittsburgh, Pa., which have become an indispensable Family Medicine. The frightful symptoms which arise from a diseased liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepathic derangement—and for these Dr. M'Lane's Pills are a sovereign remedy. They have never been known to fail, and they should be kept at all times by families.

DIRECTIONS.—Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more. A *slight breakfast* should invariably follow their use.

The Liver Pills may also be used where purging is simply necessary. As an anti-bilious purgative, they are inferior to none. And in doses of two or three, they give astonishing relief to sick headache; also in slight derangements of the stomach.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS., of Pittsburgh, Pa. There are other Pills purporting to be Liver Pills, now before the public. Dr. M'Lane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.

Sold by druggists and dealers everywhere.

☞ "OH THAT THE SKIN of an innocent sheep should be made into parchment, and written on to the undoing of a man!" quoth Shakspeare. He might also have deplored the ruining of men's forms by the uncouth manner in which some ungracious tailors butcher up the cloth made from the wool grown by these same harmless sheep. To see the perfection of the art of working up cloth wisely and well, and so as to set off to the best advantage the forms of its wearers, call at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut St. above Sixth, Phila. and examine their stock of garments for gentlemen and youths.

CAN EPILEPSY BE CURED?

We think the following letter from a respectable citizen of Mississippi will answer the question and remove all doubts from every unbiased mind:

GRENADA, Miss., June 5, 1856.

Dr. Seth S. Hance, Baltimore, Md.—Dear Sir: I take great pleasure in relating a case of spasms or fits, cured by your invaluable Pills. My brother, J. J. Ligon, has long been afflicted with this awful disease. He was first attacked while quite young. He would have one or two spasms at one attack at first; but as he grew older they seemed to increase likewise. Up to the time he commenced taking your Pills, he had them very often and quite severe, prostrating him body and mind. His mind had suffered seriously; but now, I am happy to say, he is cured of those fits. He has enjoyed fine health for the last five months. His mind has also returned to its original sprightliness. All this I take great pleasure in communicating, as it may be the means of directing others to the remedy that will cure them.—

Yours respectfully, W. P. LIGON.

No person who is suffering from Fits or Spasms, should neglect sending to Dr. Hance, after this, for a supply of his inestimable medicine. His prices are as follows: one box $3; two $5; twelve $36—sent by mail free, on the receipt of a remittance. Address SETH S. HANCE, 103 Baltimore St., Baltimore, Md.

LOCAL ITEMS.

BOYS IN TROUBLE.—On Saturday morning last some dozen or twenty of the juveniles of this place congregated in the vicinity of the reservoir of the Altoona Gas and Water Company, and amused themselves in building a house out of rails and boards, and covering it over with leaves and brush, with the intention of converting it into a shelter under which to play cards. The game generally indulged in at these gatherings is styled by the boys the "bone-yard game," a very expressive title, in our opinion, but one not generally known, we think, as we never read or heard of it until Monday afternoon.—We are sorry to say that packs of cards may be found in the pockets of quite a number of the boys about town, and it would be well for their parents to give a little attention to their pockets, and then give attention to the persons who sell them to the boys. The house built by the boys was in close proximity to the fence which surrounds the reservoir lot. In the afternoon a number of them collected at the house, when one of their number set fire to it. Being composed of combustible material, it burnt rapidly and the fire was communicated to the reservoir fence, some three or four panels of which were burned and broken down before it could be checked. Of course this was glorious sport for "Young America," but they did not feel quite so jovial when our excellent constable, Joe Ely, waited upon them, on Monday morning, with a little document signed by Esquire Cherry, summoning them to go with him to the "Lock Up" or give bail for their appearance before the said Esquire at 3 o'clock, P. M. Bail was entered for the appearance of the boys, by their parents, thus saving them the disgrace of being put in the "jug."

At 3 o'clock the party appeared at the Justice's office, which, being too small to accommodate the crowd, the case was taken to the bar-room of the American House. Quite an amount of evidence, not necessary to repeat, was taken, and the result was that some five or six boys were bound over to Court for trial on a charge of malicious mischief, and the rest of the party held as witnesses.

An act of the Legislature, passed March 11, 1857, in relation to injuring or destroying any property belonging to a Gas or Water company, makes it an indictable offence, and the person or persons convicted thereof liable to a fine not exceeding five hundred dollars and imprisonment not exceeding one year. Unless the Court should deal leniently with the boys, as this is their first offence, they stand a pretty fair chance to get a sight of the inside of Sheriff Funk's institution. Mr. Francis, Superintendent of the Gas and Water Company, is the prosecutor, and intends to put the boys through. Judge Taylor will doubtless read them a lecture, when they come before him, which will satisfy them for the balance of their lives.

This case unfolded a violation of the license law, in which a noted character, named Michael Scanlan, appears, which will be noticed in another place.

MORE ABOUT THE BURGLARY.—Our article of last week in reference to the arrest of the burglars who entered Mr. Elway's shop and stole his cloths, closed with the evidence of the German, Gœsser, in which he implicated Mungold, and on the strength of which Mungold was committed to jail. On Friday morning last, in reply to a telegraphic dispatch, a letter was received from the manager of Lippincott & Co.'s shovel factory, in Pittsburgh, stating that Mungold was employed in that factory from the 6th of December to the 25th of January, and that he was at work on Saturday the 14th and Monday the 16th of January, consequently he could not have been here on the night of the 15th, as was stated by Gœsser. The letter of the manager was handed over to the District Attorney, who has charge of the case, and who is now having everything proved according to law previous to dismissing Mungold. It is surmised that if Mungold was not directly implicated in the taking of the goods, he knew something about the transaction. If he did not, we hope he may be able to prove himself clear. He will be held until the District Attorney is satisfied that he had no hand in it.

"NOTHING TO WEAR."—The votaries of Fashion, and all those who are now prevented from making their appearance in public because of the fact that, in the language of Flora McFlimsey, they "have nothing to wear," need no longer present such an excuse. We have the pleasure of announcing to the ladies of Altoona and vicinity, and to those who have "nothing to wear" particularly, that C. Jaggard has just returned from the city with, and opened at his new iron front building, a large and select assortment of ladies dress goods, exactly suited to the locality and the season. There are three good reasons why ladies should call at Jaggard's: 1st. He has the finest store-room in the town. 2d. He has the prettiest stock of goods to be found anywhere, and 3d, and best, he has a couple of as handsome and accommodating clerks as any lady could desire to deal with. If this last reason don't bring the ladies, nothing else will.

HON. GRANTLY BEKELY.—Most of our readers will remember a famous English hunter, whose name heads this article, who, with his dogs, tarried a few days in this place, last summer. In a series of letters which he is writing to the *London Field*, a sporting paper, he takes particular pains to give almost everything he saw and everybody he met or had dealings with in this country "particulars," excepting, of course, the proprietors of, and the treatment he received at, the "Logan House," in this place. He says, in speaking of his stay here:—

"The hotel at which I found myself was a very large one, and managed by an excellent and civil gentleman, who studied my comforts, arranged a place for my dogs, and made me comparatively happy. He was himself a sportsman and I agreed to stay a couple of days and accompany him in search of any game that might be in or about the woods or fields of the Alleghany forests."

To be sure, his dogs gave him the greatest trouble. Unless they were equally well treated with himself, he was not treated aright. His hunting "about the woods or fields of the Alleghenies," was, we believe, highly unsuccessful. Hear him again:—

"At Altoona, then, I took up my quarters for a couple of days, and for the first time during my visit to the United States of America, I borrowed a serviceable-looking double shot-gun of mine host."

That's clever. Altoona possesses the only serviceable-looking double shot-gun this Englishman found during his visit to the United States of America. Of course he was a judge of the article, and we should not be surprised to hear of "mine host" obtaining a large price for his gun some of these days. The following, in relation to the railway cars of this country, as compared with English lines, we give without comment except saying that that portion in relation to tobacco juice is only too true, and the remainder slightly exaggerated:—

"Here, at Altoona, I had time to consider the boasted comforts of the American railway.—Some of my friends on board the Africa, in the voyage across the Atlantic, had assured me of its infinite superiority to the English lines, thus: 'Yes, sir; you should see our railway carriages. Guess you'll be surprised!' None of your little carriages, shut up, but each car like a great long passage; a path up the middle; yes, sir; and seats each side with a door at each end.—Yes, sir; at night—yes, sir.—Fine beds—so comfortable—sleep all the way; and if there are three cars, can walk out of one into the other, and do as you like; yes, sir." Oh! after I had experienced the travel of these boasted trains, how I longed for the cleanliness and privacy, and civilization and choice of society on the railways of old England. The American trains are filthy, their floors not only moist enough to wet through a moderately thick boot with the saliva and tobacco juice from a hundred diseased teeth and stomachs, but the door at either end permits such a thorough draft right through, and the citizens of the United States have such a perpetual desire to open and shut them, that a man used to ease and comfort, is sure to catch the ear-ache. And oh! the ladies' dresses!—The hems of those are stained three inches high with the filthy tobacco juice, which it is impossible for them to escape."

SERIOUS ACCIDENT FROM A FLUID LAMP.—On Wednesday evening last, a step-daughter of Mr. John Schweigert, proprietor of the Red Lion Hotel, in this place, was seriously burned by her clothes taking fire from a fluid lamp, which was upset or exploded. The accident occurred in a room on the second floor. As soon as the girl found her clothes on fire she screamed and ran down stairs. Her step-father, hearing her scream, came to her relief, and meeting her on the stairs, attempted to tear off the burning clothes, but her dress being a new woollen one, it would not tear easily. After considerable effort he succeeded in getting it off and quenching the fire, but not until his hands were badly burned. The girl, who is about 14 years of age, was severely burned about the left breast and arm and right thigh. For a while it was thought that she could not survive her injuries, but, under the skillful treatment of Dr. J. M. Gemmill, she is now on fair way to recover.

ANOTHER.—On Monday evening last, the wife of Mr. A. Eckel, tobacconist, in this place, was terribly burned about the face, breast and hands, by the explosion of a lighted fluid lamp which she was attempting to fill. The fire ignited the fluid and blew it up into her face and breast, setting fire to her clothes. In attempting to put it out her hands were badly and deeply burned. Most of the hair was burned from her head and the skin on her face so much seared that it will come off and most likely leave a scar, or disfigure her for life. One of her ear-rings was burned out of her ear. She is now under the care of Dr. Finley, who has done all in his power to relieve her. Her injuries are not considered dangerous.

UP FOR A DAY.—One day last week we noticed Constable Ely escorting a woman to the delectable institution known as the "Lock Up." On inquiring the cause, we learned that she had been detected in carrying away coal, which she had not purchased, from one of the coal-yards in this place. As the day was a little cool, and as there is no fire kept in the institution referred to, we doubt not a little of the coal she had pilfered would have been very acceptable, if placed upon a grate therein. Probably the cooling off she received will deter her from repeating the operation which sent her up.

P. S. We have since learned that the woman has been bound over to appear at next term of Court to answer the charge above named.

UP FOR THE NIGHT.—A couple of sons of the "Emerald Isle," who proclaimed themselves out of work and out of funds, and were considerably the worse from the use of "kill-'em-quick" whiskey, applied to Constable Ely, on Thursday last, for passes to the Poor House. That being out of Ely's line of business, he did not grant the request, but finding them lying around loose on the stone steps in front of the Company's oil-house, about 12 o'clock at night, he provided them with rooms in the "Lock Up," where they remained until 9 o'clock next morning, after which they were sent on their "winding way."

OFFICE OPENED.—We notice that Esquire McClellan has opened an office in the room occupied by Messrs. Leet & Boyer, on Main street, near the corner of Annie street, where he is prepared to attend to all business entrusted to him. Squire Mac will make an accommodating officer and will do justice and give satisfaction to all.

SPRING FEVER.—A cotemporary, who has doubtless passed through all the stages of this vernal epidemic, which is now raging and prostrating large numbers, says that the symptoms are simple and easy of detection. A hopeless lassitude—serious disclination to put the hand or the mind to any work—vague desire for impossible beatitude—a certain loafishness extending over the whole system, these attest the malady. It spares neither young or old. The smallest children are seized on their way to school, and instantly their faces are turned in another direction and the fear of the rod departs from before their eyes. For days together books are neglected. The tender mind suddenly becomes tough and refuses to receive or retain any impression. For a time the fever of trade, which prevails simultaneously in the large cities, is checked. The hum of business subsides; salesmen address their subjects in tones of gentle persuasion; the hammer descends upon the nail with measured force; boxes and bales are taken up tenderly, lifted with care. Affected by the general complaint, the lawyer abbreviates his brief, and puts the case mildly; the divine revives the past, and discourses from the barrel where the fruits of early composition repose; the doctor, conscious that no remedy of his will reach the epidemic, prescribes easy diet. The effects of the fever are not unpleasant, and all yield to them with grace. The mind wanders just far enough, and the dreams, instead of being dreadful, are soft and full of music and summer. There is one class never affected. It would be unconstitutional to be taken down.—What have newspaper folks to do with languor? Theirs is a realm of realities. The sunshine that first persuades the grass and unsettles the pavement, relaxes not the iron bonds in which they are held. Nature may have a breathing spell, an oasis, as it were, in the desert of time; but the paper must comes out.

ROW AT BLAIR FURNACE.—We learn that on Friday evening last, a difficulty occurred between Mr. Geo. C. Ferree, manager at Blair Furnace, and a man named Tries, whom Mr. Ferree had discharged from the works. Tries was under the influence of tangle foot whiskey at the time, and Mr. Ferree, not wishing to have anything to do with a drunken man, endeavored to get away from him. While they were jangling, a man named Rose, who lives at the Furnace, and the clerk in the store came up to the parties and interfered to get Tries away. A son of Tries', who was standing by, with a piece of cinder in each hand, on seeing the clerk go up to his father, let slip one of the pieces which struck the clerk back of the head, cutting a gash and almost felling him to the ground. Tries then attacked Rose, but he got the worst of the battle. After a little scrimage, Tries and his son retreated to a cinder pile and gathering up each an armful of cinder, attacked Mr. Rose's house, breaking in a window and endangering the safety of the females inside.—The clerk came up to town and had a warrant issued for the arrest of the rioters and placed it in the hands of Constable Ely, who waited upon the Tries' at an early hour on Saturday morning, but found that the old man was among the missing. The boy was arrested and brought before Esquire Cherry, who bound him over to appear at Court.

BOUND OVER.—Michael Scanlan and his wife Mary, two characters well known to most of our citizens, as the host and hostess of the "Green Bush Tavern," were waited upon by Constable Ely, on Tuesday morning last, and brought before Esquire Cherry to answer an indictment of four counts, viz:—selling liquor to minors—selling liquor on Sunday—selling liquor without license—selling liquor in smaller quanties than one quart, on all of which they were found guilty, and were consequently bound over, in the sum of $200 each, to answer at the next term of Court. If business continues as brisk as it has been for the last two weeks, Altoona will furnish a fair share of the cases to be attended to at the next term.

THE VALUE OF TIME.—If time is valuable to those who have caught a cold, so that they cannot stop from their ordinary avocations, we would be way of salutary advice throw in a hint, in behalf of DR. KEYSER'S PECTORAL COUGH SYRUP, a medicince that has many a time cured a case of cough in one night, by the administration of a tablespoonful or two, taken at bedtime. Numbers of our citizens can endorse our statement in this respect. It is besides a pleasant medicine to take, and every bottle of it is prepared by Dr. Keyser's own hands.—Sold at 50 cts and $1, by G. W. Kessler.

SNOW BEEF.—Mr. Runyan informs us that he has now on hand a mammoth steer, which will dress in the neighborhood of 1100 pounds clean meat, which he will have in market on Saturday morning week. The steer can be seen at any time, previous to Friday week, at his stable.—Mr. R. kills none but the best beeves, but we think a slice from the region of the flank or surloin of the animal referred to, would draw water from the teeth of a John Bull.

☞ By special request of many of the afflicted, Mrs. Dr. Forester will remain in Hollidaysburg until April 6th. Mrs. F. is well recommended, and many of the best citizens of Hollidaysburg and surrounding country, who have been already relieved by her treatment, are ready to testify to the fact of her ability to cure all diseases of *blindness or deafness*, when encouragement is given. Her office is at the Exchange Hotel.

☞ Geo. M. Smith requests us to state that he has just received a large lot of Oranges, Figs, Lemons, and Raisins, for sale by the box; also, a large and fine assortment of stick and fancy Candies, for sale wholesale and retail. George is a clever fellow and always does the fair thing by his customers. Give him a call at his store in Tuck's old stand, corner Main and Caroline streets.

STORE-HOUSE AND DWELLING FOR RENT.—The store-room and dwelling, now occupied by Richard Smith, as a tailor shop, will be for rent from the first of April, 1860. It is a desirable location. For further particulars inquire of R. A. O. KEY. [Mar 29, '60-tf.

At a meeting of the Adelphian Teacher's Association, held at Oak Dale, on the 10th inst., the following preamble and resolutions were adopted:—

WHEREAS, The character of the teacher is assailed by a class of men who are endeavoring to degrade it in the estimation of the people and thereby injure the cause of Common Schools, therefore.

Resolved, That in order to mantain a respectable position as a class of citizens, and to promote the cause of general education, we believe it is the duty of teachers to endeavor to obtain a moral influence over those with whom they labor, and that to labor successfully their intellectual attainments should be of the highest order.

Resolved, That our present system of public instruction, and especially that part of it relating to the County Superintendency, forms a basis upon which may be raised one of the proudest ornaments of our country.

Resolved, That in the Board of Directors of Tyrone District, we have found everything to encourage the teacher and assist in establishing the permanency of the common school system.

Resolved, That in point of good feeling upon educational interests, the people of Tyrone District are unsurpassed.

Resolved, That the foregoing preamble and resolutions be published in the several county papers.

HOSTETTER'S
STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

R. A. O. KER

WOULD INFORM THE GOOD people of Altoona, the surrounding country, and the "rest of mankind," that he has just returned from the city with a large stock of NEW GOODS, which he offers at reasonable prices, at the stand formerly occupied by B. Kerr, and recently by W. O'Neal, on Main street. His stock is the only one in town which is

ENTIRELY NEW,

and he flatters himself that he has something to please the eye of of every lady, and suit the wants of every gentleman. He deems it unnecessary to enumerate all the articles on the shelves, (as to do so would require a whole newspaper,) but would say that he has everything in the line of

LADIES' DRESS GOODS

which this meridian calls for, and all just suited to the season, together with a well selected assortment of House Furnishing Goods, such as Carpets, Window Blinds, Shades, &c., which will commend themselves.

FOR GENTLEMEN,

he has a great variety—from which they can not fail to make a satisfactory selection. He has also a tip-top assortment of GROCERIES as good, fresh and cheap as can be had this side of the place of growing or manufacture. Also, HARDWARE, QUEENSWARE, and everything necessary to complete a store in a thriving town like Altoona.

All he asks is that the people call and examine his stock, which he will at all times take pleasure in showing, and he feels confident that he can send them away rejoicing, if not in the purchase of just such an article as they wanted, at the remembrance of having looked upon the handsomest stock of Goods ever exhibited in the town.

DR. O. PHELPS BROWN'S
ACACIAN BALSAM
FOR THE PERMANENT
CURE OF CONSUMPTION, BRONCHITIS, ASTHMA, COUGHS, COLDS, GENERAL DEBILITY, &C.

THIS remedy is offered as affording a means of speedy cure for the large number that die annually in our land of that fell scourge, Consumption, to which, unfortunately, so many predisposing causes exist. Youth and age are alike subject to its ravages.

EVERY PERSON

can name one or more of his acquaintances who is subject to some form of lung or throat complaint, which, if not attended to in season, inevitably consigns the sufferer to a premature grave. To such, help is at hand if they will but avail themselves of it, and hope,—the harbinger of brighter days,—may be awakened without fear of chilling disappointment. Dr. O. PHELPS BROWN'S ACACIAN BALSAM does just what is claimed for it, and may be relied upon by the sick as being the most successful in curing lung and throat disorders, of any remedy known at the present day. The many phases assumed by Consumption justifies the apprehension of those who have reason to fear its approach, either from constitutional or hereditary tendency.

While the discoverer of this remedy does not believe that people should be constantly dosing themselves with medicines

TO PREVENT SICKNESS,

there are many cases where disease is too long allowed to remain unchecked in the system; and a slight cough, regarded at first as simply an annoyance, ceases only with the life of the patient. An impure state of the blood, through debilitation of the lungs, fills the system with morbid humors, and pulsation becomes feeble or accelerated to a feverish intensity—the heart, liver, and kidneys, separately performing functions of vital necessity to our well-being, are impeded in their regular action—the digestive organs falter in their task, and refuse to perform the process of separating the nutritious elements from food, and the whole mental being is well-nigh ready to sink under the burden of life. The patient so afflicted, accounts his case a complication of disorders, and often refuses to resort to medication, from his thorough disbelief in any prospect of cure. To such

ASK THE TRIAL

of the ACACIAN BALSAM, as thoroughly worthy the confidence of all. Every symptom of Consumption is surely and permanently eradicated by its use. Its effects are none other but strengthening and renovating to the entire system. Bronchitis, Asthma, Coughs, Colds, and General Debility, are effectually cured by its use. Night-Sweats, Loss of Flesh, and Wasting away of the Muscles, Loss of Appetite, Soreness of the Throat, Chest, and Lungs, Liver Complaint, Palpitation of the Heart, Difficulty of Breathing—all these affections disappear in an incredibly short time after using Dr. O. Phelps Brown's Acacian Balsam.

It nourishes and strengthens the patient who is too much reduced to partake of ordinary food. It heals all internal sores, tubercles, and inflammation. It strengthens, braces, and revitalizes the brain, and is without a rival as a tonic, supplying electricity or magnetic force to every part of the enfeebled and prostrate body. It needs no lengthy trial to convince any that the ACACIAN BALSAM is truly the greatest remedy of the day, as its beneficial qualities are fully apparent in eight-and-forty hours after trial.

Let the invalid, then, no longer delay, but make the trial, and the result will surely be of the most gratifying character.

The ACACIAN BALSAM is prepared with the greatest care, and the best materials. No pains or expense are spared to make it what it is—the best known remedy of the age. It may be taken by either sex, of all ages, and at all seasons, with perfect safety; and it is none the less powerful in conquering those diseases which sap the foundation and destroy the lives of so many in our midst. Every family should have it, and regard it as a household treasure.

MOTHERS

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First. It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them. Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation, viz:

FOR ALL COMPLAINTS ATTEDING TEETHING; such as DYSENTERY, COLIC, &c., also, for softening the gums and relieving pain. For regulating the Bowels it is unequalled. For Cold in the Head it is a sure relief. For the CROUP, the most fatal and trying of all diseases, it can be relied on with perfect confidence; and being a powerful antispasmodic in all cases of convulsions or fits, we earnestly recommend you to lose no time in procuring it. Lastly—It costs so much more than other preparations of the kind that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD

Dr. Bronson, having been so far reduced by consumption as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years practice—as a last resort conceived the idea of ANALYZING THE BLOOD, and applying the subject of Physiology to the more immediate connection, and effect, of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite or pain in the side, lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from Nervous Debility, or your Sleep is Broken and disturbed, if your Spirits are Depressed, or your Organs relaxed, you will find this an unfailing remedy, by commencing with ten drops. If your Liver is torpid or diseased in any manner whatever, one or two bottles will be sure to invigorate and bring it into lively and healthy action. In the most inveterate cases of Dyspepsia, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking only one bottle. In Male or Female Complaints or Weakness, the sufferer, after trying other remedies in vain, may rest assured, that a certain cure will result from the use of two or three bottles. The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas and other like complaints.—Pale and emaciated children and adults are immediately benefitted by its use. It gives strength to the body and color and beauty to the skin. Physicians of all schools are using it with wonderful success. For full directions, see circulars. Price $1 per bottle. Sold by

DR. HERSHEY'S,
CELEBRATED
Worm Syrup.
TO THE PUBLIC.

AFTER A TRIAL of over TEN years in private practice, the subscriber is prepared to offer to the public a WORM SYRUP which has never failed to perform cures where others have been given in vain. It is beyond dispute the most pleasant and effectual preparation of the kind ever offered for sale.

It performs its cures safely, speedily, and effectually; injuring the nervous system in no wise—unlike, in this respect, to the Pink Root and Turpentine preparations—for does it contain mercury in any shape or form; but is a purely vegetable production, and so harmless in its action that the most delicate infant may take it.

It is one of the best and most gentle purgatives that can be administered to children, in case, even, where no worms exist, and is all that may be required, in nine cases out of ten, to restore the deranged condition of the digestive organs, so frequently met during childhood; and save your children from severe spells of sickness, or convulsions.

Those Physicians who have used it are perfectly delighted with it, and use it in preference to any other preparation ever offered.
